# REPORT OF THE BOARD OF EDUCATION.

---

Your committee intended to give to each school the same number of weeks, but in the Vessel Rock school the teacher would not keep longer as she wished to go away to school. The East school teacher in the fall term closed by reason of sickness, and the winter term was closed for want of scholars.

Miss Alice E. Webster taught throughout the year in the West school. She was a teacher of some experience, and proved herself a first class teacher, and the scholars all made good progress in their studies.

We were compelled to employ two or more teachers in the other ungraded schools and they had had little or no experience as teachers, but they all proved themselves qualified for their position and under the circumstances had good success.

Two of the teachers were not supported by the parents of some of the scholars and there was not the progress that there would have been under right circumstances. The parents who criticise every act of the teacher in the hearing of their children, or fail to see that they regularly attend school, or give them to understand that it is not necessary to get their lessons in a thorough manner, not only injure their children more than any one else but make it very discouraging to the best of teachers.

The Grammar school commenced with Miss Gertrude M. Fleming as teacher. She brought to the work a Normal school training, experience and a determination to make the school a success. She began the fall term, but owing to poor

health was obliged to resign for a few weeks, hoping to be able to resume her work in the school room at the beginning of the winter term. She conducted the school to the satisfaction of your committee who had hoped to retain her services for the entire year. After waiting a long time for her to take charge again, word came that she was unable to teach and for us to hire another teacher. The vacancy was filled by Mr. I. J. Cox of Dartmouth college who came well recommended, but he lacked in discipline and the school did not appear at its best. Coming near the middle of the term placed him in an embarrassing position, which did not give him a chance to show his abilities as a teacher.

The winter term was taught by Mr. W. H. Mitchell of Dartmouth college, who was a good instructor and firm in discipline. As is apt to be the case after loose reins it is hard work to bring into line those scholars who go to school to have a good time rather than get a good education. So means were not left untried to thwart the best efforts of the teacher, but notwithstanding all this there was good order and good work done.

The Primary school has been under the care of Miss Lila H. Mason, whose efficient work in the schoolroom is too well known to pass any remarks upon only of praise in the highest terms.

A first class teacher is not made by education alone. They should know thoroughly what they are required to teach and have the ability to impart instruction, and to govern the scholars so as to secure obedience without spending much time about it. The aim of all committees should be to secure first class teachers, and to keep them as long as a reasonable compensation will do so, bearing in mind that every term they teach increases their usefulness.

The school report of 1887 says that "we believe the time has come when a course of study should be arranged for the grammar school. Scholars differ in their inclinations and it often takes until the second week of the term before the studies are definitely arranged. It would relieve the teacher of much annoyance."

Parents should bear in mind that the teacher, under the

direction of the school board, prescribe the studies to be pursued.

Every teacher should have their path made as pleasant as possible, and should be encouraged in every good way by every parent and every friend of education. The parents should visit the schools and generally they will learn as to their condition, if their visit is not at the last end of the term.

I wish to dissent from the report as to Mr. Mitchell's school.

| Remaining in Collector's hands,                    | 120 59           |

|  | \$152 82         |
| Estimated town indebtedness,                       | <hr/> \$2,681 59 |

In the foregoing report the liabilities are nearly double the amount of last year.

The cause is evident from the fact that the item of \$300 town indebtedness, known as the school fund, which we feel it a duty to report, has not been reported for several years; also a shrinkage of \$624 14 in the savings bank tax and literary fund, making a total of over \$900, which amount if it had been available together with \$443, excess of expense laid out on highways over appropriation, would have kept the indebtedness of the town about the same as in February, 1895.

Respectfully submitted,

JOHN A. SMITH,

JOHN H. LAING,

CHARLES G. WILDER,

Selectmen of Gilsum.
